Entry Requirements

These qualifications are designed for learners who are typically aged 19 and above.

The policy regarding access to our qualifications is that:

- they should be available to everyone who is capable of reaching the required standards
- they should be free from any barriers that restrict access and progression
- there should be equal opportunities for all those wishing to access the qualifications.

Introduction to the Level 7 Qualifications in Strategic Management

These qualifications in Strategic Management have been developed to conform to the requirements of the RQF, to meet the requirements of higher education and employers, to meet the needs of learners and to respond to the needs of our centres.

We provide a flexible route for learners who have already achieved management qualifications at a lower level and for learners who do not have business or management qualifications, but may have qualifications in other areas and/or prior management experience in the work place.

These qualifications are designed to provide:

- opportunities for learners to acquire knowledge and understanding and develop a range of skills, personal qualities and attitudes essential for successful performance in working life
- specialisms that are directly related to learners' current responsibilities or that meet a particular interest and support career development

• opportunities for learners who wish to undertake a full time course of study leading to an Extended Diploma

• learners with the opportunity to acquire a broader range of knowledge and understanding and to develop the skills they require to work in the field of management

Progression

On successful completion of a Level 7 Qualification in Strategic Management there are a number of progression opportunities.

Learners may progress to:

- a larger qualification at the same level e.g. from a Diploma to an Extended Diploma
- an MBA programme and claim exemptions for some of the units completed

employment if they are not already in employment.

Level 7 Extended Diploma in Strategic Management

The Level 7 Extended Diploma in Strategic Management is a 120 credit qualification. All learners must complete the five core units totalling 75 credits. Learners then select the unendorsed route or one of 4 pathways: Finance, Marketing, Managing People, International.

Level 7 Extended Diploma in Strategic Management Unendorsed Route

Learners selecting the unendorsed route take the five core units and a further three units from the list below.

Core Units

Unit Title	Level	GLH	Credit
Strategic Planning	7	60	15
Finance for Strategic Managers	7	60	15
Research for Strategic Development	7	60	15
Organisational Behaviour	7	60	15
Personal Development for Leadership and	7	60	15
Strategic Management			

Optional units

Strategic Marketing	7	60	15
International Marketing	7	60	15
Corporate Communications	7	60	15

Unit Specifications

Unit Format

Each unit is presented in a standard format. This format provides guidance on the requirements of the unit for learners, tutors, assessors and external verifiers.

Each unit has the following sections:

Unit Title

The unit title reflects the content of the unit. The title of each unit completed will appear on a learner's statement of results.

Unit Aims

The unit aims section summarises the content of the unit.

Unit Code

Each unit is assigned a unit code that will appear on the qualification certificate

Level

All units and qualifications have a level assigned to them which represents the level of achievement. The level of each unit is informed by the level descriptors.

Credit Value

The credit value is the number of credits that may be awarded to a learner for the successful achievement of the learning outcomes of a unit.

Learning Outcomes

The learning outcomes set out what a learner is expected to know, understand or be able to do as the result of the learning process.

Assessment Criteria

The assessment criteria describe the requirements a learner is expected to meet in order to demonstrate that the learning outcome has been achieved. Command verbs reflect the level of the qualification e.g. at level 6 you would see words such as analyse, evaluate, synthesise.

 Be able to develop strategy options for an organisation 	 4.1 Use modelling tools to develop strategy options for an organisation 4.2 Develop criteria for reviewing the potential strategy options 	4M1 Apply the criteria and evaluate the options as the basis for delivering the strategic direction of the organisation	
5. Understand how to create a strategic plan to meet business objectives	 5.1 Explain the structure of a plan needed to deliver a strategy 5.2 Explain how stakeholders are involved in the formulation of the plan 5.3 Produce a dissemination process to ensure stakeholders are informed and committed to the plan 	5M1 Create monitoring systems to ensure the successful implementation of a strategic plan	5D1 Construct a strategic plan for a named organisation

1. Understand the foundations for developing organisational strategy

- Explanations of organisational vision, mission, strategy and business plans; the differences and the interface between them
- Core organisational values e.g. ethical, environmental, client centred; cultural diversity; drivers e.g. business growth; profit; market share; workforce expectation
- Objectives and measures: SMARTER (specific, measurable, achievable, realistic, time-based, evaluate, re-evaluate) objectives; stakeholder involvement

2. Understand the external environment affecting organisations

- External factors: needs and expectations of stakeholders e.g. customer groups, shareholders, suppliers and sub-contractors, the workforce and the community
- The success and direction of competitors and changes in the market sector as a whole in the short and long term e.g. product design; political changes and developments; legal changes; trends and expectations; exchange rates; trading agreements
- Use of external surveys and statistics; customer analysis and feedback; use of tools e.g. SWOT (strengths, weaknesses, opportunities, threats) analysis, STEEP (social, technological, economic, environmental and political) analysis; market research including primary and secondary information; feasibility

3. Be able to review an organisation's strategy and business plans

- The purpose of review and what this will entail; tools e.g. Value Chain analysis, SWOT analysis, Porter's Five Forces; internal surveys and statistics
- Market position; market share analysis; life cycle analysis; Boston growth share BCG Matrix
- SWOT analysis, resource analysis, competitive analysis, skills and competencies audit, benchmarking sustainable competitive advantage; pricing strategies; resource analysis; economies of scale and scope for this; market equilibrium

4. Be able to develop strategy options for an organization

Strategic planning options:

- Ansoff Matrix Strategies; corporate expansion; integration i.e. vertical, backwards and forwards; horizontal; differentiation; Porter's generic strategies
- Diversification, control of resources, distribution channels; Mintzberg's strategies (deliberate, emergent)
- Strategic alliance; merger, acquisition; competitive strategies
- Value-based strategy; contingency strategy; maintaining/increasing market share, niche markets; market segmentation
- Adding value; workforce competence development; product portfolio; reconfiguration; gap analysis; profitability; portfolio analysis; benchmarking
- Criteria for judging options; feasibility studies; risk assessments

5. Understand how to create a strategic plan to meet business objectives

Structure:

 Mission statement /corporate vision, corporate values and principles, decisions from options; strategic goals / initiatives, strategy, roles, responsibilities, accountability; objectives and measures: SMARTER (specific, measurable, achievable, realistic, time-based, evaluate, re-evaluate) objectives; execution plan, balanced scorecard, targets / interim targets / success metrics

Resource issues:

• Resources e.g. financial, human; skills and competencies; needed v in place;

availability. Stakeholder involvement and buy-in:

- When and at what stage in the process; how will this take place; who will be involved; communications with stakeholders; gaining general organisational agreement to the process; feedback
- Tie departmental plans into strategic plan, align performance management and reward systems to strategy implementation.

Dissemination:

• Communications with stakeholders how and when; dissemination and cascading processes; guidelines; timetable for implementation; Business Process Re-Engineering (BPR); action planning at departmental and operational levels

Monitoring:

 Monitoring and evaluation control systems; responsibilities at strategic and operational levels; performance appraisal; focus and realignment; contingency planning; smart objectives and success criteria at all levels in the organisation; establish nature of monitoring e.g. tracking system and monitoring points; review meetings; role of celebration.

techniques.	

- 1. Understand the importance of financial data in formulating and delivering business strategy
 - Sources of financial information: Internal (internal accounting systems, payroll etc.), External (suppliers, Companies House, the Budget etc.)
 - Financial information: Profitability, Cash flow, Business value, Financial stability, Cost projections.
 - Need for financial information: Assessing finance requirements, obtaining finance, reporting to owners, shareholders and stakeholders, Setting and meeting targets, Appraising new projects, Managing risk, Internal needs v External needs.
 - Business risks: Strategic, Market, Compliance, Operational, Risk modelling.
- 2. Be able to analyse financial data for an organisation in order to inform strategic decision making purposes
 - Published accounts: Purpose, Provide information to shareholders/stakeholders, Users for example, shareholders, potential shareholders, managers, employees, lenders, creditors, suppliers, customers, community, competitors, Annual reports, including main financial statements (statements of financial position, income statements, sources and statements of cash flows), director's report, audit report, notes to accounts etc., Internal management accounts versus published financial accounts, Structure of financial statements – content and requirements, Limitations of published accounts.
 - Comparative analysis: Comparison between years, Comparison between businesses, Industry comparisons, Benchmarking.
 - Ratio analysis: Reasons for using ratios, advantages and limitations, Ratio categories, including profitability, liquidity, efficiency, capital and investor.
- 3. Be able to evaluate proposals for strategic decisions on capital expenditure in an organisation
 - Types of expenditure, difference between capital and revenue expenditure (definitions, decision making, treatment in financial statements)
 - Investment appraisal techniques: Payback, Accounting rate of return, Net present value, Internal rate of return, Discounted cash flow, Cost benefit analysis, Value for money.
 - Long term and short term finance: Definitions of long term and short term, Importance of matching finance to project.
 - Sources of finance: Range of sources, External and internal sources, Role of markets, Role of government, Long term and short term, Advantages and disadvantages of each source, Implications of each source, for example gearing.
 - Cash flow management: Cash flow forecasts v Cash flow statements, Managing inventory, trade payables, trade receivables, etc., Budgetary control processes – budgets and variances.

3. Be able to present research findings in an appropriate format for a target audience	 information from primary and secondary sources to make valid conclusions 3.1 Prepare a report that provides a comprehensive explanation of the purpose, methodologies, findings and recommendations 3.2 Reference all sources using a recognised system 3.3 Use the information collected to justify conclusions and 	3M1 Respond orally to questions on research findings	3D1 Analyse how the findings of the research can be used in an actual strategic business context
 Be able to evaluate own skills while undertaking research 	recommendations4.1 Review own skills linked to own research using personal reflection and feedback4.2 Make recommendations on ways to improve own skills while undertaking research	4M1 Produce a plan to improve own research skills	4D1 Implement the plan and assess the impact on own personal progress

1. Be able to formulate a research proposal relating to strategic business development

Research proposal:

 Possible questions or hypothesis; different formats for research proposals; aims of research; scoping research projects; SMART objectives; terms of reference; rationale for selection; ethical issues

Information for strategic development of business area:

• Examples may include analysis of organisation; structure, culture; planned growth strategy, marketing, operational issues; SWOT analysis, PEST analysis, analysis of customers and key stakeholders, competitor analysis

Success criteria:

· Linked to purpose, objectives and outcome, SMART

Project planning:

- Key milestones, resources, risk assessment and management, critical pathways, contingency, accessing relevant information, project goals, schedule, communication systems, sensitivity of information gathered e.g. intellectual property, data protection Link to Business Development:
- Rationale for chosen research linked to stated business development needs

2. Be able to use different research methodologies to gather sufficient and valid data

Research methodology:

- Research methods e.g. survey, questionnaire including manual and electronic, observations; ways to test sufficiency, reliability and validity; definitions of data e.g. primary and secondary sources, qualitative and quantitative; literature search and review – its credibility, use and acceptance; ways to reference sources
- Size and sufficiency of data, reliability and validity of information gathered

3. Be able to present research findings in an appropriate format for a target audience

Research findings:

- Report format e.g. title, acknowledgements, contents page, introduction, summary of literature review, research methods used, findings, recommendations, references, bibliography, appendices e.g. questionnaires, surveys
- Referencing e.g. Harvard system

Analysis of data and application of statistical methods:

• Qualitative interpretation of records, feedback, processes, categories, trends and

relationships

• Quantitative e.g. mean, median, mode, variability e.g. range, standard deviation, application to business data, reliability of estimates from samples, trends and forecasting

Presentation of findings:

• Methods for statistical data e.g. graphs, charts, statistical tables; chosen audience e.g. colleagues, Board members, external stakeholders; use of language in report appropriate to the chosen audience; power point presentations

4. Be able to evaluate own skills while undertaking research

Methods of self-evaluation:

• Personal reflection, constructive feedback from range of sources, evaluation forms, use of electronic equipment e.g. recording interviews, SWOT analysis. Balanced judgements

Improving own research skills:

- Examples may include courses or qualifications, mentoring, coaching, conferences, secondments, application in future research
- Plan with specific actions, timescales, success criteria, resource implications, milestones. The plan is realistic but challenging and can be implemented. It addresses areas of weakness and builds on strengths

Organisational Behaviou	ur

in order to improve	in organisational	motivation	employees
	decision making		

their efficiency and effectiveness	4.2 Explain different ways to motivate	
	employees	

1. Understand leadership behaviour theory and practice

- Leadership versus management
- Leadership behaviour theory including: personal leadership traits, trait theories (e.g. Allport. Eysenck Cattell), 'great man' theory of leadership, contingency theories (e.g. Fiedler, cognitive resource theory), situational theories (e.g. Hersey and Blanchard, Vroom and Yetton), behavioural theories (e.g. role theory, managerial grid/leadership grid), participative theories (e.g. Lewin/Likert, transformational v transactional leadership, emotional intelligence).
- Working relationships and interaction e.g. power, behavioural theories, social constructivism

2. Understand how organisational structures and culture impact on the effectiveness of the organisation

- Organisational structure: Bureaucracies, Stakeholders, re-engineered corporation, modular, hierarchical, matrix, liquid devolved decision making powers, networked and atomised organisations, virtual organisations, line, staff & functional structures, formal and informal organisations, designing organisation structure, centralisation, decentralisation.
- Organisational culture: Harrison power, role, person, task cultures, Likert autocratic, benevolent autocratic, consultative participative, Mintzberg simple, machine bureaucracy, divisional, adhocracy, Pedlar et al the learning organisation.
- How structure and culture impact on effectiveness
- Leader as a change agent
- 3. Understand how organisations can improve employee effectiveness to respond to business opportunities
 - Innovation and creativity
 - Organisational culture: integration / interaction of disciplines and teams, attitude to risk, rewards.
 - Organisational learning: The learning, learning culture, knowledge capture and management, technical knowledge versus experiential knowledge, technology.
 - Measuring performance: Metrics, KPI, business scorecard, working in teams, group dynamics, teams versus groups, communications, collaboration and team decision making, motivation of groups.
 - Change processes and outcomes: Changes (reorganisation, restructuring, merger and acquisition, downsizing), involving stakeholders, communicating and managing change.

4. Understand how organisations can motivate employees in order to improve their efficiency and effectiveness

• Motivational theory including: Taylorism, Mayo, Maslow, Herzberg, McGregor, Broad theories (e.g. temporal motivation theory), cognitive theory.

Personal Development for Leadership and Strategic Management This unit aims to help learners develop their own personal leadership Unit aims and management skills in the context of the creation and achievement of organisational vision and strategic direction. Unit level 7 Unit code J/615/2682 GLH 60 Credit value 15 Unit grading structure Pass Assessment guidance Learners must achieve the learning outcomes and meet the standards specified by the assessment criteria for the unit. Additional assessment guidance is provided on the ATHE sample assignment brief. To achieve the standards for this unit, learners will be required to understand the knowledge and skills needed by leaders and managers, create a plan to achieve these qualities and be able to know how progress with the plan can be reviewed. Learning outcomes. Assessment criteria. The learner will: The learner can: Pass Merit Distinction 1D1 Evaluate the 1. Understand how 1.1 Analyse the 1M1 Justify a ranking knowledge and knowledge and skills order of the leadership and in leadership and skills in leadership leadership and management knowledge and and strategic strategic management skills required for management management which knowledge and skills support the creation the successful are required to required to and achievement of support the creation successfully create achievement of organisational vision and achievement of and achieve organisational and strategy organisational operations versus organisational vision and strategy strategy the creation and 1.2 Assess the achievement of contribution that organisational factors other than strategy knowledge and skills in leadership and strategic management make to the achievement of organisational vision and strategy 2.1 Analyse the factors 2. Understand how to 2M1 Evaluate the key develop and which impact on the factors needed to gain communicate creation of the commitment of organisational vision organisational vision internal stakeholders 2.2 Assess the different when communicating approaches to the vision developing vision 2.3 Evaluate the key factors which impact on the communication of vision to external stakeholders

3. Be able to manage development of own personal knowledge and skills in leadership and strategic management to support achievement of personal and organisational vision and strategy	 3.1 Review theories of leadership and management and assess the implications for your personal development 3.2 Carry out an audit of own personal leadership and management knowledge and skills which facilitate the creation and achievement of organisational vision and strategy 3.3 Set objectives to meet personal development needs in the context of strategic organisational needs 3.4 Prepare a personal development plan to develop own leadership and management skills and to support the 	3M1 Justify how the objectives and the plan selected for personal development support achievement of organisational vision and strategy	3D1 Carry out appropriate personal development activities to develop knowledge and skills identified in the audit
4. Be able to reflect on the benefits of personal development in the achievement of personal growth and organisational vision and strategy	-		4D1 Review progress and outcomes of the personal development plan against the objectives set

1. Understand how knowledge and skills in leadership and strategic management support the creation and achievement of organisational vision and strategy

- · Meaning of vision and strategy and their interrelationship
- Knowledge and skills required visioning, describing possible futures with clarity, creating, giving direction, specificity, providing motivation, planning, communicating and listening at different levels, synthesizing, analysing, empathy, decision taker, link between vision and strategy, bringing about effective change, emotional intelligence, developing and leading high performance teams, consistency and reliability, delegation, dealing with conflict, gaining alignment.
- Contribution to organisational vision and strategy. Leadership and management knowledge and skills can be insufficient. Other factors which come into play include – financial situation, political uncertainty, availability of human and physical resources, and instability in the market.
- Ranking order produced from criteria leading to determination of high, medium and lesser importance.
- Similarities, difference and importance of knowledge and skills needed by strategic managers compared to operational managers.

2. Understand how to develop and communicate organisational vision

- Factors impacting on organisational vision history of the organisation, external and internal business environment, capacity of the organisation, anticipating potential barriers, skills and ambition of leadership team
- Approaches to developing vision Two way, top down bottom up, timing, clarity, specificity, quality of information, presentation, dialogue, culture understanding and, feedback loops, involvement,
- Factors which impact on the communication of vision to internal and external stakeholders - size of organisation, organisational development, culture and diversity, size, complexity and boldness of vision, communication systems, dissemination and cascading processes

3. Be able to manage development of own personal knowledge and skills in leadership and strategic management to support achievement of personal and organisational vision and strategy

- Theories of leadership and management and their application Transformational Leadership, Transactional Leadership, tri-dimensional leadership theory, charismatic leadership, situational leadership
- Audit of personal skills and knowledge linked to creation and achievement of organisational vision and strategy
- Objectives and personal development plan- specific, clear, challenging, achievable objectives linked to audit, directly related to plan with stated outcomes, tasks, time frames, deadlines, monitoring points. Plan could include formal learning leading to qualifications, training courses, work shadowing, and job rotation or mentoring. Plan could include informal learning e.g. reading texts, learning from successes and mistakes, using diagnostic tools e.g. Myers Briggs; development of emotional intelligence, ability to learn, systems thinking

4. Be able to reflect on the benefits of personal development in the achievement of personal growth and organisational vision and strategy

- Benefits of review reviewing performance, learning from experience, repeating what is good, dealing with weaknesses, acknowledging success. Review can be used frequently in order to improve e.g. at key milestones, at the outset and conclusion of tasks, at the end of a meeting, after a difficult problem.
- Sources of information appraisal outcomes, 360-degree feedback systems, client feedback, staff/colleague/superiors' feedback, personal observations, data, KPIs, business results.

1. Understand the principles of strategic marketing

Role of strategic marketing

• Definitions of marketing strategy, its role in the organisation and how it underpins marketing planning and activities; concept of product and customer in different organisations; resources and implementation and monitoring, control

Corporate strategy and marketing strategy

 Corporate strategy; linking marketing strategy to corporate mission and vision; defining the business and conducting a situation audit meeting corporate objectives with marketing strategy; corporate social responsibility; marketing

Development of a marketing strategy

· Analysis of the environment; setting objectives; dynamic strategy - flexibility for change

Way in which strategies can contribute to competitive advantage

 Segmentation; targeting and positioning; relationship strategies; product innovation and development; principles of branding; service marketing; pricing and distribution; E-marketing

2. Understand how to carry out a strategic marketing analysis

Internal environmental analysis

• Resource-based, performance, value chain, functional

External environmental analysis

 Macro environment; micro environment; competitor analysis; wider external factors including government

Integration

• Fit between internal and external environment

3. Understand the role of customer behaviour in marketing strategies

Marketing research

• Defining the need with respect to consumer behaviour; data collection, organisation and interpretation; primary and secondary research; methodologies

Customer/consumer behaviour

• Definitions of customers and consumers; concept of consumer behaviour; buyer behaviour and factors affecting it; B2B and B2C; concept of customer loyalty

Customer behaviour analysis

• Principles of relationship marketing and its use; concepts of customer retention and customer relationship management

Psychology of consumer behaviour

 Models: Pareto efficiency, Black Box model; stages of the buying process; purchasing decisions; demographics; culture; psychographics

4. Understand how to develop an implementable marketing plan

Marketing audit

 Identify current competitive position (leader, follower, challenger, nicher, defensive); coherence with existing business strategies and plans; their cost-effectiveness; marketing and communication methodologies, SWOT analysis

Strategy formulation

 Information requirements; setting SMART objectives, success and evaluation criteria; identify strategic alternatives and establish specific courses of action

Implementation

• Identify alternative marketing action plans relating to the marketing mix and communication plans.

Monitoring systems

• Key Performance Indicators (KPIs) and marketing metrics; milestones; response mechanisms; budget monitoring

Contingency planning

 Nature of possible events; risk identification and assessment; response strategies; impact of changes to plans

5. Understand how to create a marketing strategy to meet business objectives

Requirements

 Strategic marketing planning process; planning models and stages; gap analysis techniques and uses; concepts of social responsibility, societal and ethical marketing and their strategic impact

Alignment

 Strategies for achieving coherence with corporate strategies and plans; who should be consulted

Internal/external environment

• Use of tools and techniques to achieve coherence with the environment; market entry strategies: reseller, distributor, sales outsourcing; market entry timing: wave, waterfall, sprinkler

Competitive forces

• Forces: threat of substitute products, power of customers, power of suppliers, potential for new competitors, current competitors; nature and scale of their likely impact

International Marketing				
	This unit enables learners to understand the requirements of international			
	marketing, in particular, the financial considerations to be taken into account			
	in entering and operating in international markets. Learners will also be able to develop an international marketing strategy and understand the			
	implications and requirements of international marketing communications

communications	may affect marketing		communications	
	communications			
	3.2 Assess the role of			
	technology in			

international marketing communications 3.3 Assess the implications and requirements of different sales and marketing	
communications strategies	

1. Understand the implications of international marketing for organisations

International market research

 Validity of data produced in developing markets; international marketing information systems and their integration into organisation-wide systems; suitability of different marketing research methods in an international context; use of environmental scanning tools in an international context

Resource investment

 Advantages, disadvantages and requirements of different methods of market entry; international agencies; multinational trading groups; role of UKTI, BIS and international development agencies in overseas trade; accommodation; availability of local labour and skills; international logistics, distribution networks and environmental/political conditions affecting them

Business case

 Reasons for market entry; associated issues; nature, size and maturity of local markets; barriers to success, return on investment. Start-up and ongoing costs; methods of financing international marketing; sources of finance; availability of local incentives; international insurance; multinational financial systems. Design of pricing structures; exchange rates and options; international insurance; shipping and import costs; factors affecting financial risk and their strategic implications: e.g. market conditions, customers' creditworthiness, local government involvement in the economy; identification of financial risk; risk maps; financial risk treatment options; risk management in an international context (identifying issues, range of risk treatment options); local laws; foreign monetary policies and reducing exposure; risk sharing options; Suitability of different risk treatment options; role of foreign exchange markets; arbitrage; spot and forward exchange rates; hedging.

2. Understand how to develop an international marketing strategy

Nature of the market

• Local economic and political conditions; impact of foreign business cultures on local communities; ethical considerations; potential for friction between local marketing objectives and strategies and corporate objectives and strategies; history of the market

International marketing methods

• Strategic international marketing planning; factors affecting the selection of marketing methods in an international context e.g. need for local endorsement, availability of technology and distribution networks, relationship management considerations

Local conditions

 Size and nature of the local market; presence and reputation of local and international competitors and rival products/services; local sensitivities; suitability of management styles for locally recruited employees; delivery models e.g. joint ventures, franchising and licensing, agents

Operational considerations

 International market segmentation, targeting and positioning; international marketing mix; standardisation v adaptation in the international marketing mix; organisational structures, locus of decision making powers and their potential impact; management control (centralized v decentralised) Legal considerations

• Implications for marketing, product; materials, safety, branding. Promotions; cultural regulations, restrictions. Distribution; PDM, use of agents. Market research. Pricing; tariffs

3. Understand the requirements of international marketing communications

Marketing communications

• Culture, ethics, local beliefs and practices; language issues; need for acceptance by community leaders and influencers; cultural and advertising taboos

Role of technology

 Integration of country marketing information systems into an international marketing information system; availability, reliability and functionality of technology; alternative methods of marketing communications

Implications and requirements

 Implications of cultural and language factors on operational management (e.g. recruitment and training of staff); availability and sophistication of local facilities to support sales and marketing communications strategies and activities

Glocalization

 Globalization and glocalization; advantages and disadvantages of glocalization; Brooks & Nomore; Govindarajan and McCreary
